Letter No'.C.679/L.F.24-25 dated the 27th March 1925, from the President, District Board, Chitaldrug District, to the Chief Engineer of Mysore, Bangalore.

With reference to your memo No.13170 dated 24th March 1925 Re. the construction of Maternity and Wards at Davangere, I have the honour to state that the modified project amounting to Rs.31,000/- was duly countersigned and forwarded to the Executive Engineer, Chitaldrug Division, with this office No.C.679/L.F.24-25 --- dated 16th March 1925, both the District Board and the Local Municipal Council having approved of the project.

"C O P Y"

Maternity and wards and other Medical Buildings in Davangere Town.

=====

Reference:- Chief Engineer's No.3139/21 dated 1-9-1924.

======

An estimate for construction of a Maternity and wards and other Medical Buildings in Davangere Town amounting to Rs 49,270/- was prepared and submitted to ~~Chief Engineer~~ with Executive Engineer's No. dated 12-8-1922 which was forwarded to Government for sanction in Chief Engineer's No.B.1682 dated 16-12-1922.

2. As the result of some observations from Government and further correspondence, a modified estimate for the same, amounting to Rs 31,000 was prepared by the Chief Engineer. A fresh design for the main building of Maternity and wards was adopted, there being no change regarding the other out buildings except for some slight alterations regarding rates. The design has had the approval of the Senior Surgeon and requires only the approval of the Consulting Architect.

3. This modified estimate was forwarded to the District Board, Chitaldrug and to Davangere Municipality, which bodies after great discussion have approved of the estimate, and the countersignatures of the Presidents thereof have been obtained in token of approval.

4. The Davangere Municipality have already paid a sum of Rs 12,000/- and odd towards their quota of contribution of Rs 13,778/-. They are ready to pay up the balance as well. The District Board of Chitaldrug are also prepared to pay up their quota of contribution of Rs 6889/- as soon as the estimate is sanctioned. The State Fund quota comes to Rs 10,333/- which may be made available even in 1926-27 if necessary, utilising the contribution amount for outlay in 1924-25 and 1925-26.

5. At this stage, it is not needed to touch upon the necessity for according early sanction to the estimate.

6. The rates and other things are all scrutinised and are all right. Sight plan and all other enclosures accompany.

A. Jamdoni
30.3.25
Executive Engineer,

M E M O.

RE DAVANGERE MATERNITY HOSPITAL.

-:o:-

A project for the above estimated to cost Rs.49,270 was prepared by the Executive Engineer, Chitaldrug Division, the elevations and other architectural details being as modified by the Consulting Architect; this was returned unsanctioned by Government with a remark that the design may be made cheaper in consultation with Mr.Krumbiegel.

Mr. Krumbiegel who was consulted in the matter modified the design by omitting the rear verandah and by altering the whole roof into a tiled one, the central connecting rooms were made double - with the consequence that the cubical contents of the building were not reduced. Thus the cost was not reduced to any appreciable extent - vide his -- letter dated the and blue print elevation marked-A.

The building however has been re-designed by Mr. Lakshminarasappa in this office on the lines noted below with the consequence that the total cost of the project has been reduced to Rs.~~30,100~~/- as per detailed estimates herewith submitted.

The modifications are.-

(1) The layout of the building has been simplified thus avoiding all corners and hips and valleys.

(2) The height of the building has been reduced from -- 18'-0" to 14'-0" as any height above 14'-0" is known to be prejudicial for the effective ventilation of this small building.

(3) The principal axis of all rooms has been so turned as to present the longest facade of the building to the south, as this is considered to be the best orientation for the whole, thus simplifying construction and minimizing fenestration and portalage

(4) The verandah on one side, i.e., the northern face only has been omitted as this could be done with the minimum detrimental effect to the building due to sun or rain but with the maximum advantages as regards direct light and ventilation.

(5)

(5) The unoccupied floor space in the wards have been slightly reduced as this could be done with advantage such as an -- 8'-0" wide central passage was reduced to 6'-0" as this was considered to be ample.

(6) The lavatories and other accessories such as linen room have been shifted to less prominent position where they can be constructed with lowest initial cost as their - - - interior height has been considerably reduced.

All the above points were discussed with the Senior Surgeon who agreed to the alterations suggested and who has countersigned the plan in token of his approval thereto.

The total estimated value of the project amounts to Rs.30,100 and this was made possible by re-designing all parts carefully though with the rates for all the items as per original estimate; and it is not possible to make any further reduction in the cost without making it unfit for the purpose for which the building is intended.

Encl. 2

OFFICE OF THE SENIOR SURGEON
WITH THE GOVT. OF MYSORE,

BANGALORE, 23rd September 1925.

FROM B. Mahomed Usmon, Esq., L.M.S.,
Senior Surgeon with the Government of
His Highness the Maharaja of Mysore,
Bangalore.

24 SEP. 1925
SECTION

To
The Secretary to the Government of
His Highness the Maharaja of Mysore,
Local and Legislative Departments,
Bangalore.

Med — 57-25

Sir,

With reference to the orders of Government, in the Public Works Department, conveyed in letter No. P. W. 3819, dated 13th June 1925, from the Secretary to Government, Public Works Department, to the Chief Engineer of Mysore, sanctioning plan and estimate for Rs.31,000/- for the construction of the Maternity at Davangere, I have the honour to state that, in connection with the offer made by certain gentlemen to contribute towards the construction of wards, the plans were obtained and forwarded to the District Medical Officer to be shown to the individuals as desired by them in a meeting held on 30th May 1925, copy enclosed. The report of the District Medical Officer, No. 370, dated 11th August 1924, shows that the result is very disappointing. Only two gentlemen are said to be prepared to construct single bed wards costing not more than Rs.500/- and that no one is willing to contribute for the costly ward accommodation provided in the sanctioned plan or to pay anything in cash. The promise of private contributions has, thus, to be considered as withdrawn, in view of Resolution, dated 29th July 1925, copy enclosed.

At the same time, it appeared to me on seeing the elaborate plan, that a building with accommodation for 24 beds was rather too extravagant for a Taluk Head Quarter town like Davangere, when even District Head Quarters cannot boast of accommodation for 12 lying-in beds. I therefore wrote to the Chief Engineer why the building should not be reduced to 12 beds which would be sufficient for some years to come, the design being adapted to future expansions

expansions as may be found necessary by experience. In his letter No.836, dated 26th August 1925, copy enclosed, the Chief Engineer is not disposed to agree with me.

In my opinion any scheme providing for double the present requirements, anticipating future needs, must be characterised as extravagant, especially under the present financial difficulties all round. Besides, any saving that could be effected by reducing the size of the Maternity to what is required for 12 beds, would be very useful to construct subsidiary buildings, such as, residential quarters for the medical and nursing staff and the Out-patients Department, which are essential in the case of every maternity which has to be efficiently worked.

In these circumstances I request that the actual commencement of building operations may kindly be ordered to be stayed and the question of the Maternity and the combined dispensary and wards for general cases - male and female.- is considered as a whole and settled.

I have the honour to be,

Sir,

Your most obedient servant,

Senior Surgeon.

the Senior Surgeonis letter regarding the provision for wards for th proposed Maternity Hospital to be built in Davangere.

Present.- Mr. Charles Noronha, M.A., President,
Mr. S.Krishna Murthi, L.M.S., District Medical Officer,
Mr. P. Gurusiddappa,
Mr. Ramanujam Pillay, Assistant Surgeon,
Mr. T.M. Rudriah,
Mr. J. Ghousemiya Sahib,
Mr.O. Chennbasappa,
Mr. C. Narayana Chetty,
Mr. J. Subba Rao,
Mr. T. M. Onkrappaya.

Resolution.

Resolved that as the notice is too short some more time be given to consult the leading gentlemen of the town and consider the matter. The District Medical Officer will be requested to pay another visit to this place in this connection giving at least a week's notice in advance In the meanwhile some of the Councillors present will interview the leading gentlemen of the town and explain to them the nature of the proposal and the kind of help that will be required of them. As it is desirable for this purpose to have a copy of the plan and estima e for the proposed building the Senior Surgeon will be requested tosupply the same at an early date.

sd. Charles Noronha,
President, 30-5-1925.

Subject No. XIII- Re. District Medical Officer's letter regarding ~~construction~~ contributions toward the construction of the Maternity Hospital (2) Deputy Commissioner's Memo No. S.C.569/24-25, dated 2nd May 1925, on the above subject.:

Resolution:- Resolved that a reply as follows be sent to the District Medical Officer: Messrs. Muniyappa and Onkarappiaha who are present state that when they made the offer to the Dewan Saheb they had in mind the provision of accommodation for a single bed each. Even now they are willing to build a room each for a sinlge patient if the plan is given to them. They are however not prepared to contribute anything in cash or to build the elaborate wards provided for in the plan and estimate now proposed by the Chief Engineer. No other gentleman present are willing to make any contribution towards the scheme. However, as the Municipality has provided for its share of the cost they pray that the work may be put in hand without delay as per plan approved by Government.

President, 29-7-1925.

"Copy."

Senior Surgeon.

D. O. Letter No. 863 dated 25th/26th August 1925 from the Chief Engineer of Mysore, to the Senior Surgeon in Mysore, Bangalore.

With reference to your D. O. No. C. 1236-29, dated the 15th instant, re. the sanctioned plan of the proposed Maternity at Davangere, I have to inform you as follows:-

A project for a small building costing about Rs.28,000/- was sanctioned in 1922, but the then SeniorSurgeon desired to increase the accommodation consequently the project was modified to Rs.49,270/- last year under instructions from all concerned.

The above project was submitted to Government for sanction and it was returned with orders to reduce the cost.

The design was altered in this office so as to bring down the cost to a more reasonable figure and the present sanctioned design therefore is such as in my opinion is suited admirably to the locality concerned, because the whole building is a compact block and the number of beds marked as 24 must be taken to be its extreme maximum capacity but the actual number used may be limited to 12 only for the present.

The plan as now sanctioned cannot be considered to be too extravangant for even 12 beds.

I do not think there is therefore any necessity for any change at this stage.

"Copy."

Subject:- Construction of a building for the Maternity Hospital at Davangere.

Davangere is the largest town in the Chitaldrug District with a population of over 17,000. The town being a commercial centre, has been growing into importance day by day.

2. The want of a Women's Dispensary building with quarters for the Lady Apothecary was being keenly felt by the inhabitants and the question as such was being brought forward during the meetings of the Representative Assembly.

3. The question of having a building for the Maternity Hospital at Davangere as per type approved for such class of buildings was under the consideration of Government. Since the year 1912 Government in their order No.C.4684-7/Med.82-13-5 dated the 26th August 1919, conveyed administrative sanction for a Dispensary of the usual Local Fund Type. Detailed plans and estimates were then got up in consultation with the Senior Surgeon and the Presidents of the Local Bodies and an estimate for the building at a cost of Rs 28,123 was sanctioned by Government in the year 1922.

Before the work could be started, Government in their Order No.26652-61/Med.120-21-3 dated the 12th May 1922 approved the suggestion of the Senior Surgeon for the location of the Hospitals and Dispensaries for women and children in the

same building as those for men. So the sanctioned estimate had to be cancelled and a fresh one got up.

A fresh estimate for the location of the combined Hospital as scrutinised by this office came to Rs 49,270 and provided for the items of work noted in the margin. This project which was duly got approved by the Presidents of the Local Bodies after much discussion and the Senior Surgeon was recommended to Government, who, however, desired that the design may be made cheaper.

With a view to keep down the cost, the amount of the estimate was reduced in this office without altering or in any way dimishing the accommodation proposed by the Executive Engineer as desired by the Local Bodies, i.e., the President of the District Board and the Town Municipality, by omitting merely all non-essential accessories and a few of the architectural features and by reducing the height and thickness of wall to the minimum necessary for the structure. The estimate amount was thus reduced from Rs 49,270 to Rs 31,000, resulting in a savings of Rs 18,270 to Government.

The Presidents of the District Board and the Town Municipality were not in favour of reducing the cost of the structure as they desired to have a more imposing building as per reports received from the Executive Engineer, but they were persuaded to countersign the altered design after being given a definite assurance that the cost has been cut without in any way reducing the accommodation or the architectural beauty of the design. These two officers have countersigned

the project and have already made available their quota of cost for the work.

Tenders for the work have been called for and they are under disposal.

I am strongly of opinion that it is inadvisable to effect any alterations at this late stage and the objections now put forward by the Senior Surgeon cannot be considered, especially as his predecessor in office (Dr.Mylvaganam) who has countersigned the plan has approved of all the provisions made therein, in fact the altered plan was prepared in this office after detailed consultation with him on all the points.

Bangalore.

SIR

With reference to letter No.C.1236-32 dated the 23rd September 1925, from the Senior Surgeon with the Government of Mysore to your address, making certain observations on the estimate for the construction of the building for the Maternity Hospital at Davangere sanctioned by Government in the P.W.D., I have the honour to forward herewith, for your information, a copy of note drawn up in this office on the construction of the building and to state that, for reasons given therein, the Senior Surgeon's proposal cannot be considered especially when the estimate has been got sanctioned after obtaining the countersignature of all the parties concerned.

2. Any change at this stage is considered undesirable.

I have the honour to be,
Sir,
Your most obedient servant,

16.12.25
Chief Engineer of Mysore.

Subject:- Construction of a building for the Maternity Hospital at Davangere.

Davangere is the largest town in the Chitaldrug District with a population of over 17,000. The town being a commercial centre has been growing into importance day by day.

2. The want of a Women's Dispensary building with quarters for the Lady Apothecary was being keenly felt by the inhabitants and the question as such was being brought forward during the meetings of the Representative Assembly.

3. The question of having a building for the Maternity Hospital at Davangere as per type approved for such class of building was under the consideration of Government, since the year 1912 Government in their order No.C.4684-7/Med.82-17-5 dated the 26th August 1919 conveyed administrative sanction for a Dispensary of the usual Local Fund Type. Detailed plans and estimates were then got up in consultation with the Senior Surgeon and the Presidents of the Local Bodies and an estimate for the building at a cost of Rs 28,123 was sanctioned by Government in the year 1922.

Before the work could be started, Government in their Order No.26652-61/Med.120-21-3 dated the 12th May 1922 approved the suggestion of the Senior Surgeon for the location of the Hospitals and Dispensaries for women and children in the

same building as those for men. So the sanctioned estimate had to be cancelled and a fresh one got up.

A fresh estimate for the location of the combined Hospital as scrutinised by this office came to Rs 49,270 and provided for the items of work noted in the margin; when this project which was duly got approved by the Presidents of the Local Bodies after much discussion and the Senior Surgeon was recommended to Government, who however desired that the design may be made cheaper.

With a view to keep down the cost, the amount of the estimate was reduced in this office without altering or in any way dimishing the accommodation proposed by the Executive Engineer as desired by the Local Bodies i.e., the President of the District Board and the Town Municipality by omitting merely all non-essential accessories and a few of the architectural features and by reducing the height and thickness of wall to the minimum necessary for the structure. The estimate amount was thus reduced from Rs 49,270 to Rs 31,000 resulting in a savings of Rs 18,270 to Government.

The Presidents of the District Board and the Town Municipality were not in favour of reducing the cost of the structure as they desired to have a more imposing building as per reports received from the Executive Engineer but they were persuaded to countersign the altered design after being given a definite assurance that the cost has been cut without in any way reducing the accommodation or the architectural beauty of the design. These two officers have countersigned

the project and have already made available their quota of cost for the work.

Tenders for the work have been called for and they are under disposal.

I am strongly of opinion that it is inadvisable to effect any alterations at this late stage and the objections now put forward by the Senior Surgeon cann be considered especially as his predecessor in office (Dr.Mylvaganam) who has countersigned the plan has approved of all the provisions made therein in fact the altered plan was prepared in this office after detailed consultation with him on all the points.
